

Chores for Change in Haiti

This year Henking School would like to teach our students the importance of generosity by helping the children of Haiti in the wake of their devastating earthquake. We are having a fundraiser so students can donate to the US Fund for Unicef Haiti Relief.

To give students a better idea of the value of the money they are donating, we ask that you encourage your child to do some extra chores around the house...shoveling snow, helping to clean the car, etc. The money they earn to do these chores would then be brought to school to add to our donation fund.

Once your child has earned his/her donation, s/he would fill out the attached slip indicating the chores completed. We will add all slips to the "Well-belling Wall" to show how our students are helping those in need. At the end of two weeks we will send all donations to the US Fund for Unicef Haiti Relief, which uses 100% of donations received to help save the children of Haiti.

We can receive donations in cash, or preferably a check. Checks should be made out directly to US Fund for Unicef Haiti Relief. **ALL DONATIONS MUST BE RECEIVED BY THURSDAY, FEBRUARY 11TH.**

We really appreciate your support as we strive to encourage our children's understanding of generosity and kindness.

Sincerely,
The Henking Staff
